# Twelfth Biennial Report.

---

Office of the State Board of Land Commissioners,  
Helena, Montana, December 1, 1906.

To the Tenth Legislative Assembly:

Pursuant to the provisions of Section 3505 of the Political Code, the State Board of Land Commissioners herewith submits its Twelfth Biennial Report for the fiscal years of 1905 and 1906.

The State's holdings now amount to 3,409,029.39 acres. Of this amount 345,825.95 acres are timber lands, although not all appraised show an estimate of 1,138,895,000 feet of saw timber thereon.

The remainder of 3,063,203.44 acres being grazing and agricultural lands.

The amount of land under five year lease is 1,890,453.07 acres, being 41 per cent of the State lands, exclusive of the timber lands, which are not placed under lease.

The amount of land sold by the State up to the present time is 99,178.02 acres, made up from the several grants as shown in the tables following:

## SELECTIONS.

The several grants of land made by Congress to the State, amounting to 668,560.00 acres, have been practically filled by selections made by the State. There remain yet 5,000.00 acres to be selected for the Capitol Building Grant.

During the past two years 33,059.34 acres of land have been selected. Of this amount 6,509.17 acres are timber lands placed to the credit of the Capitol Building Grant, and 24,889.09 acres selected as Indemnity School Land in lieu of School Lands lost to the State by reason of appropriation by settlers before survey, or claimed as mineral land by miners and prospectors; or reserved by the Federal Government for other purposes. In this manner 513,138.39 acres have been selected by the State and practically all placed under lease.

In Yellowstone County 3,820 acres of good agricultural land was selected upon the west bank of the Big Horn River in lieu

of the School Land that fell below the government canal at Huntley, said School Land being retained by the Federal Government on account of the irrigation project being constructed at that point.

In Teton County 6,624.72 acres were relinquished to the Federal Government on account of being in conflict with irrigation projects, or a hindrance to the policies of the Interior Department, and other selections were made in lieu thereof.

### INVESTMENT OF STATE FUNDS.

The following investments of State Funds were made during the two years, it being necessary for the Board to offer a premium to secure some of the bonds purchased.

THE STATE OF MONTANA

---

FOR THE YEARS 1905 AND 1906

---

## Report of the Register of the State Land Office.

---

Office of the Register of the State Land Office,  
Helena, Montana, December 1, 1906.

To His Excellency, Joseph K. Toole, Governor of Montana.

Sir:—As provided in Section 3592 of the Political Code, I respectfully submit a report of the business of this office for the fiscal year ending November 30, 1906. Because reports of this department are published only biennially, I attach a summary of the report of the last fiscal year.

The business transacted in this department during the last twelve months is larger by over two hundred and sixty thousand dollars than any previous year.

The State now has 1,890,453.07 acres under five year contracts, which yield an annual revenue of \$199,518.42. There are 160.860 acres under annual permits, yielding \$10,801.25 a year, making a total of 2,051,313.07 acres under lease, yielding an income of \$210,319.67.

The total receipts for the year are \$651,352.62, derived from following sources: From sale of lands, \$236,417.57; from timber sales, \$193,151.63; from leases, \$209,956.66; from interest on deferred payments, \$11,291.90; and from royalties on coal, \$534.86.

During the year the State Board of Land Commissioners approved of two particularly large timber sales, viz: To the Northwestern Lumber Company of Kalispell, 69,135,000 feet for \$138,270.00, and to the Big Blackfoot Milling Company of Bonner, 19,030,000 feet for \$38,060.00.

Timber contracts not completed are following:

Green and Miles of Florence for timber on N.  $\frac{1}{2}$  and S. E.  $\frac{1}{4}$  Sec. 36, in T. 11 N. of R. 19 W. at \$2.10 per thousand feet stumpage; Anaconda Copper Company, Lumber Department, of Hamilton for W.  $\frac{1}{2}$  Section 16 in T. 3 N. of R. 21 W. at \$2.00 per thousand feet; Beacom and Fitzgerald of Bearmouth for all Section 16 in T. 12 N. of R. 14 W. at \$2.00 per thousand feet; Ed. Donlan of Missoula for sundry tracts in T. 18 N. of R. 26-

27-28 W. and T. 20 N. of R. 27 W., part at \$2.55 and part at \$2.75 per thousand feet; Ed. S. Hays of Missoula for section 16 in T. 12 N. of R. 20 W. at \$2.50 per thousand feet.

Timber trespasses have been very few only \$11.00 worth having been reported by Mr. John Bowser, assistant timber scaler, during the year.

From miscellaneous timber permits which have been paid up in full, the State has received \$180,060.00 during the year.

A coal mining lease was granted to G. J. Ayars of Havre for the N.  $\frac{1}{2}$  of Section 31 in T. 33 N. of R. 16 E. at a royalty of 12 $\frac{1}{2}$  cents per ton. One other coal mining lease was granted to C. J. McCarthy of Bozeman for S.  $\frac{1}{2}$  of Section 36 in T. 7 S. of R. 20 E. This lessee has not yet produced any coal and no royalties have been received from him.

Applications for purchase of State lands have been very numerous and the State Board of Land Commissioners has acted very cautiously in this matter, and many offers have been declined.

During the fiscal year 1905 the State sold a total of 10,206.21 acres of land for \$114,836.31, and during the year 1906 it sold 22,598.10 acres for \$287,407.43.

The State sold the largest acreage in Yellowstone County last year, due partly to the opening of the ceded strip of the Crow Reservation, which caused the State to hold a public auction in said county at which bidding was very spirited, and 4,385.90 acres were sold for \$66,859.52.

The cash receipts of the department have been extraordinarily large, and the clerical work has increased accordingly. In the expense account of the department, however, there is little difference. Last year the total expenses of this department were \$15,832.72, and this year, \$13,076.84.

In 1897 the amount distributed per capita for the benefit of the common schools was \$0.38, while last year it was \$2.90 and this year may exceed \$3.00.

In addition to the lands sold as above reported, the State sold lots in the School Addition to the City of Missoula for the value of \$4,375.00, and in the Addition to the Townsite of Terry 49.45 acres for \$1,279.10 on the 30 per cent payment plan, and 50 acres for which patents were issued for \$1,550.00.

From the list of tables submitted herewith comparisons can readily be made, and a study of same will no doubt prove interesting.

Very truly,  
JOHN P. SCHMIT,  
Register.

# Twelfth Biennial Report

## OF THE

# STATE LAND AGENT

---

OFFICE OF THE STATE LAND AGENT,

Helena, Montana, December 1, 1906.

To His Excellency, Jos. K. Toole, Governor, Helena, Montana.

Sir:—I have the honor to submit herewith the following report of this office for the fiscal years 1905 and 1906.

### SELECTION OF STATE LANDS.

During the years of 1905 and 1906 there was selected 33,059.33 acres distributed among the different grants as follows, to-wit: Indemnity School, 24,889.08 acres; Public Building Grant, 8,170.25 acres. The table showing the various counties in which the selections were made is attached hereto. Of these selections 6,509.17 acres are timber land situated in Flathead and Missoula counties and containing about 50,000,000 feet of saw timber. The remainder, 26,530.16 acres, is choice grazing land and placed under five year leases at an annual rental of \$85.00 per section.

### CONTESTS.

During the past two years this department has experienced considerable difficulty in making selections of timber lands. In Flathead County several thousand acres have been held up on account of local contests, but, however, I am of the opinion that eventually the contests will be decided in favor of the State.

### TRESPASS.

The State has had but little trouble with trespassers in the last two years. In 1905 there was collected \$666.80, and in 1906 but \$11.00. This shows very plainly that the State's rights are being respected.

## FOREST FIRES.

The loss by forest fires has been exceedingly small for the last two years, the amount of damage being insignificant.

## RECOMMENDATIONS.

I find upon personal investigation that the old estimates made upon timber lands are lower than they should be. In many instances where I have carefully cruised I have more than doubled former estimates made years ago, and I believe it would be greatly to the State's advantage to have the old estimates carefully gone over and new appraisements made.

I do not think it advisable for the State to sell individual sections of timber when we have large holdings adjacent thereto, on account of the slashings left, which are apt to be fired and endanger the timber standing.

In the last two years commodities have risen in price, especially lumber. Therefore, standing timber has become more valuable, and I believe it would be well for the Board of Land Commissioners to increase its price upon the standing timber belonging to the State. In the last year the demand for timber has passed all expectations and it is no more than fair that the State should enjoy its share of the prosperity.

Respectfully submitted

HENRY NEILL,  
State Land Agent.
